

# ANSI/CEA Standard

## Mobile Electronics Cabling Standard

ANSI/CEA-2015

May 2007

## NOTICE

Consumer Electronics Association (CEA<sup>®</sup>) Standards, Bulletins and other technical publications are designed to serve the public interest through eliminating misunderstandings between manufacturers and purchasers, facilitating interchangeability and improvement of products, and assisting the purchaser in selecting and obtaining with minimum delay the proper product for his particular need. Existence of such Standards, Bulletins and other technical publications shall not in any respect preclude any member or nonmember of CEA from manufacturing or selling products not conforming to such Standards, Bulletins or other technical publications, nor shall the existence of such Standards, Bulletins and other technical publications preclude their voluntary use by those other than CEA members, whether the standard is to be used either domestically or internationally.

Standards, Bulletins and other technical publications are adopted by CEA in accordance with the American National Standards Institute (ANSI) patent policy. By such action, CEA does not assume any liability to any patent owner, nor does it assume any obligation whatever to parties adopting the Standard, Bulletin or other technical publication.

This CEA Standard is considered to have International Standardization implication, but the International Electrotechnical Commission activity has not progressed to the point where a valid comparison between the CEA Standard and the IEC document can be made.

This Standard does not purport to address all safety problems associated with its use or all applicable regulatory requirements. It is the responsibility of the user of this Standard to establish appropriate safety and health practices and to determine the applicability of regulatory limitations before its use.

(Formulated under the cognizance of the CEA's **R6 Mobile Electronics Committee**.)

## **FOREWORD**

This standard was developed by the Consumer Electronics Association (CEA) R6 Mobile Systems Committee.

# CONTENTS

1 Scope.....	3
2 References.....	3
2.1 Normative References.....	3
2.1.1 Normative Reference List .....	3
2.1.2 Normative Reference Acquisition .....	3
2.2 Informative References.....	3
2.2.1 Informative Reference List.....	3
2.2.2 Informative Reference Acquisition .....	4
2.3 Symbols and Abbreviations .....	4
2.4 Compliance Notation.....	4
3 Conductor Design.....	4
4 Power Handling Capability.....	6
4.1 Power Cables .....	6
4.2 Speaker Cables .....	10
5 Jacket Material .....	14
6 Cable Flexibility.....	14
7 Test and Measurement Requirements .....	14
7.1 Physical Measurement.....	14
7.2 Electrical Measurement .....	15
8 Reporting Requirements .....	15

## Tables

Table 1: Size, Conductor Resistivity and Strand Count Requirements for CEA Wire Gauges.....	5
Table 2: Circular Mil per Ampere Limits for Various Wire Gauges Rated for 90° C in Ambient Temperature of 71-80° C.....	8
Table 3: Maximum Power Cable Length in Terms of CEA-2006-A Rated Total Amplifier Power in Meters (Feet) .....	9
Table 4: Maximum Speaker Cable Length and CEA-2006-A Rated Per-Channel Amplifier Power for Various Cable Gauges .....	13

## **CEA Document Improvement Proposal**

If in the review or use of this document, a potential change is made evident for safety, health or technical reasons, please email your reason/rationale for the recommended change to [standards@ce.org](mailto:standards@ce.org).
