NOTICE

Consumer Electronics Association (CEA[®]) Standards, Bulletins and other technical publications are designed to serve the public interest through eliminating misunderstandings between manufacturers and purchasers, facilitating interchangeability and improvement of products, and assisting the purchaser in selecting and obtaining with minimum delay the proper product for his particular need. Existence of such Standards, Bulletins and other technical publications shall not in any respect preclude any member or nonmember of CEA from manufacturing or selling products not conforming to such Standards, Bulletins or other technical publications, nor shall the existence of such Standards, Bulletins and other technical publications preclude their voluntary use by those other than CEA members, whether the standard is to be used either domestically or internationally.

Standards, Bulletins and other technical publications are adopted by CEA in accordance with the American National Standards Institute (ANSI) patent policy. By such action, CEA does not assume any liability to any patent owner, nor does it assume any obligation whatever to parties adopting the Standard, Bulletin or other technical publication.

This CEA Standard is considered to have International Standardization implication, but the International Electrotechnical Commission activity has not progressed to the point where a valid comparison between the CEA Standard and the IEC document can be made.

This Standard does not purport to address all safety problems associated with its use or all applicable regulatory requirements. It is the responsibility of the user of this Standard to establish appropriate safety and health practices and to determine the applicability of regulatory limitations before its use.

FOREWORD

This standard was developed under the auspices of the Consumer Electronics Association (CEA) R4 Video Systems Committee.

CONTENTS

1 Scope.....	1
2 References.....	1
2.1 Informative Reference List	1
2.2 Informative Reference Acquisition	1
3 Definitions & Acronyms	2
4 Symbols and Abbreviations.....	3
5 Typical Digital STB Features with the Power Consumption Model	3
5.1 Typical Feature Sets.....	3
5.2 Digital STB Power Consumption Model.....	4
5.2.1 Essential Functions (Features and Services).....	4
5.2.2 Architecture.....	4
5.2.3 Definition of Power States	6
5.2.3.1 ON State	7
6 Measurement of ON State Energy Consumption.....	7
6.1 Test Conditions.....	7
6.1.1 Market-Specific Line Voltage & Frequency	7
6.1.2 STB Test Configurations.....	7
6.2 Power Measurement Method.....	8
6.3 Test Equipment.....	8
6.3.1 Crest Factor	8
6.3.2 Frequency Response	9
6.3.3 Resolution	9
6.3.4 Accuracy.....	9
6.3.5 Calibration	9
6.4 ON State Test Method	9
6.5 Examples	10
6.5.1 Example 1	10
6.5.2 Example 2	10
